Carbon Reduction Plan

Supplier name	**The Global Development Partnership Ltd**
Publication date	**04/07/2025**

Commitment to achieving net zero

The Global Development Partnership Ltd is committed to achieving net zero emissions by 20**45**.

Baseline emissions footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline year: 2024
Additional details relating to the baseline emissions calculations:

Baseline year emissions:	
Emissions	Total (tCO2e)
Scope 1	440
Scope 2	90
Scope 3 (included sources)	140
Total emissions	670

Current emissions reporting

Reporting year: 2025	
Emissions	TOTAL (tCO2e)
Scope 1	180
Scope 2	45
Scope 3 (included sources)	80
Total emissions	305

Emissions reduction targets

In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **530** tCO2e by 20**35**. This is a reduction of **20**%.

Carbon reduction projects

Completed carbon reduction initiatives

The following environmental management measures and projects have been completed or implemented since the 20**24** baseline. The carbon emission reduction achieved by these schemes equate to **25** tCO2e, a **10**% reduction against the 20**24** baseline and the measures will be in effect when performing the contract.

- Improved production efficiencies
- Greater consolidation of global shipments
- Taking advantage of better carbon flights

Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Opening more international production sites
- Logistics closer to the end customer, a reduction of shipping times
- Reduction in global travel as international markets mature

Declaration and sign off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard[13] and uses the appropriate government emission conversion factors for greenhouse gas company reporting.[14]

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.[15]

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the supplier:

……Stuart Elson, CEO……..
